

# MILLENNIUM BUCK HUT Q-202 REPLACEMENT COVER INSTALLATION INSTRUCTIONS

Should you have any questions about the installation and/or use of this product, or any other Millennium product(s) do not hesitate to call one of our customer service representatives at (601) 932-5832 or visit us online at [millenniumstands.com](http://millenniumstands.com). Our service representatives will answer any questions you may have about any of the complete line of Millennium products.

NOTE: If your Buck Hut is a 2019 version you will need an upgrade kit to use the Q-202 cover as the Q-201 cover is no longer available. The instructions are on our website: [www.millenniumstands.com](http://www.millenniumstands.com)

Thank you for your purchase of this quality Millennium product! To ensure your personal safety, please take a moment to carefully read this product Instruction Manual in its entirety before attempting to set-up, install and/or otherwise use this Millennium product. Failure to do so could result in serious personal injury or death! This Millennium product has been designed, engineered and manufactured to provide you with years of trouble free service.

## Q-202 Buck Hut Cover Installation Instructions

Make sure all the snap buckles line up with the uprights.

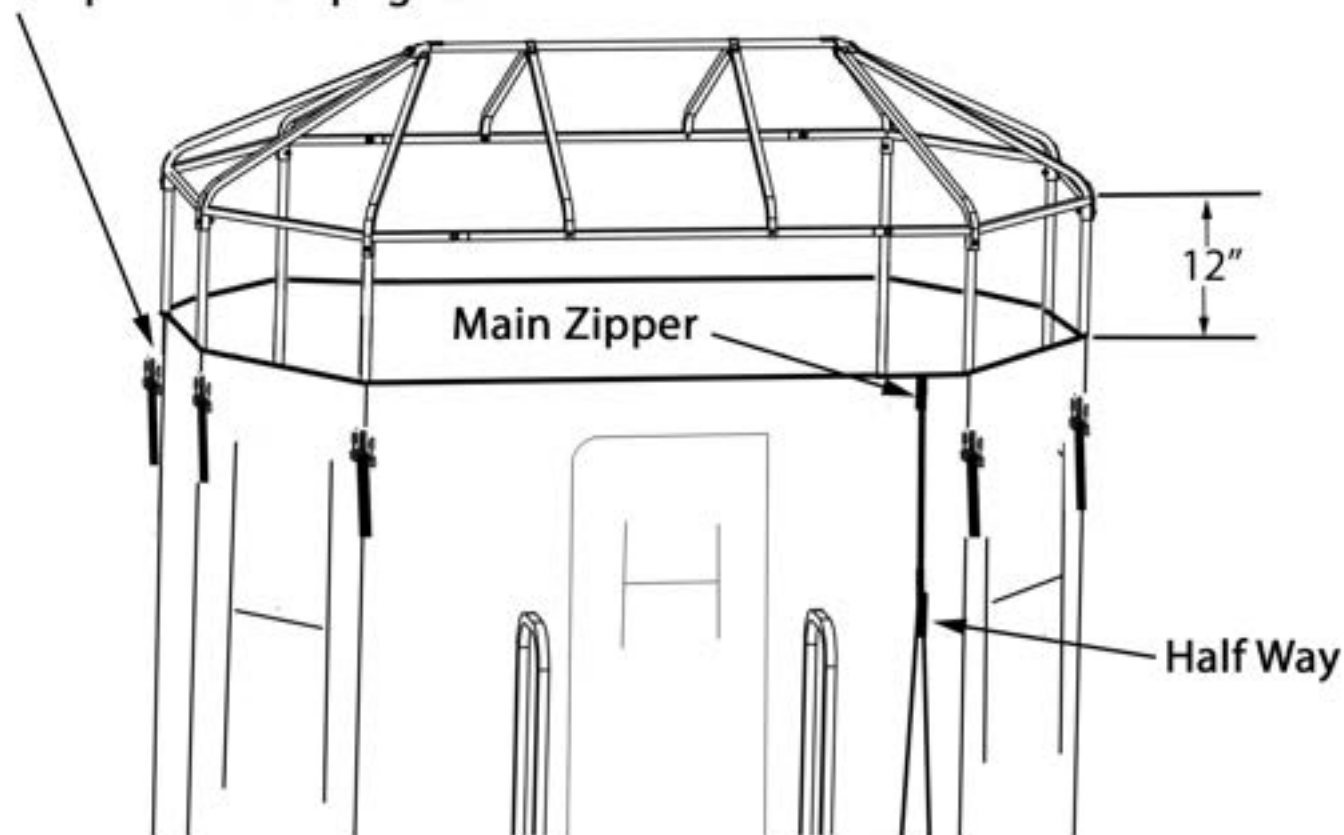

Figure 1.

**STEP 1** Install the blind cover. The cover can be installed while standing inside the blind. Locate the main zipper by the door, while one person holds the zipper in the approximate location about 12 inches below the roof main frame as seen in Figure 1 the other person or persons wrap the fabric around the blind while keeping it as tight as possible and maintain 12 inches below the roof main frame. Make sure all the straps with snap buckles are located in line with the uprights as seen in Figure 1 As one person holds the fabric tight the other can start the zipper and zip it about half way down. Be sure when starting that the male portion of the zipper is fully inserted into the female or zipper damage can occur. Once started it is best if one person pulls the fabric together ahead of the zipper so not to put too much strain on the zipper.

## (Q-202 Buck Hut Cover Installation Continued)

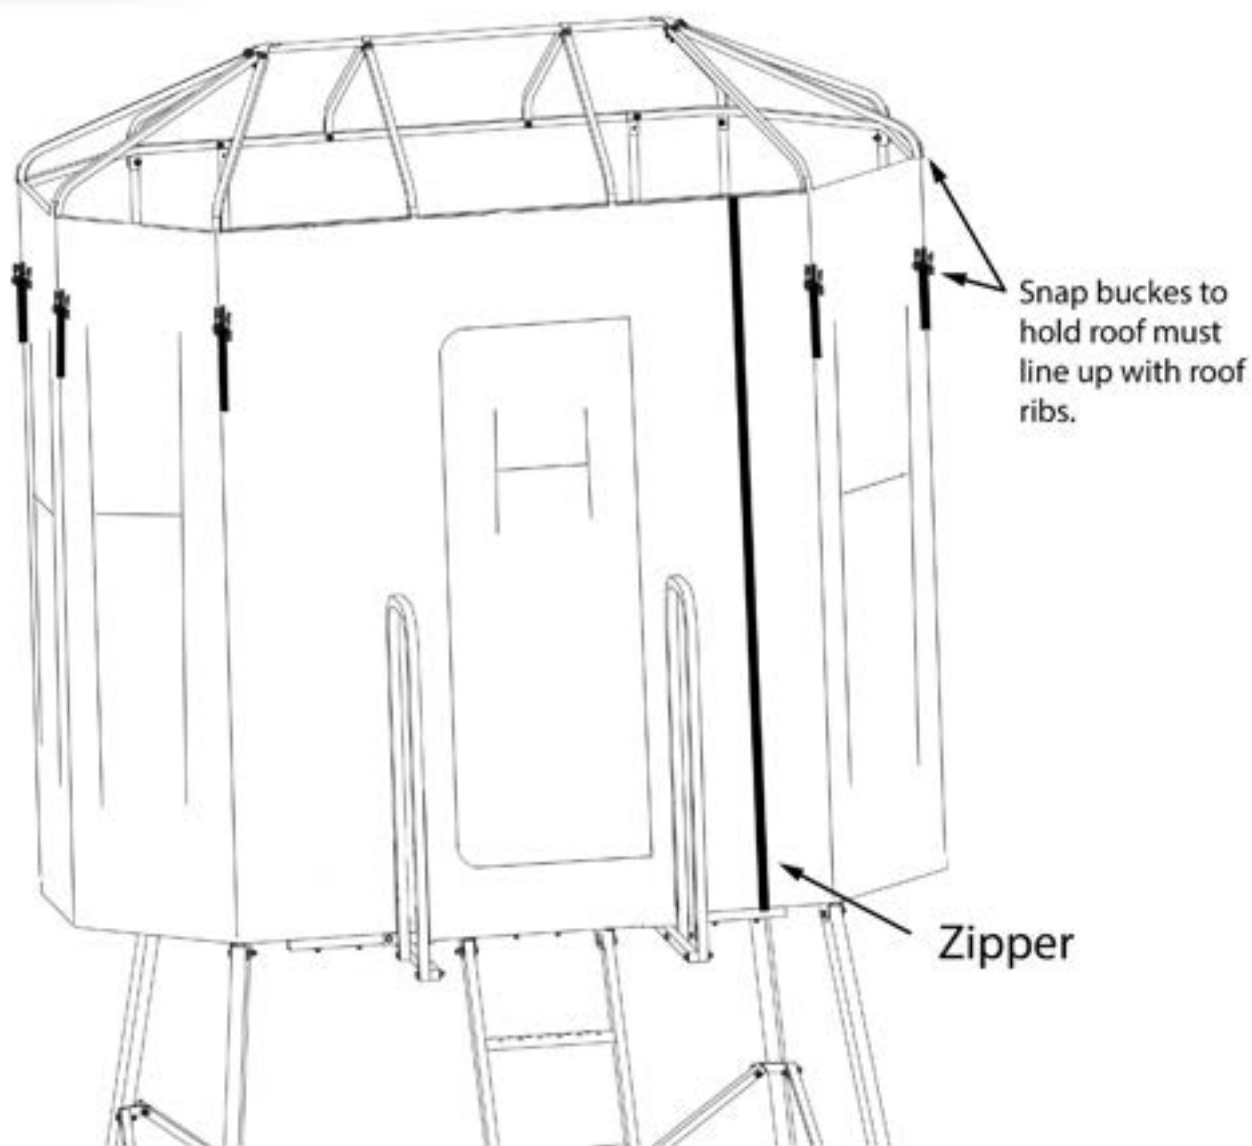

Figure 2.

**Step 2.** Make sure all the straps with snap buckles line up with the uprights and begin to slide the fabric cover up even with the top of the roof main frame as seen in figure 2. Make sure all the bungee straps are hanging outside the cover, you will have to gently push out on the fabric at each roof rib to get it over the screws and brackets that hold the roof ribs to the roof main frame. You can now finish closing the main zipper.

### (Q-202 Buck Hut Cover Installation Continued)

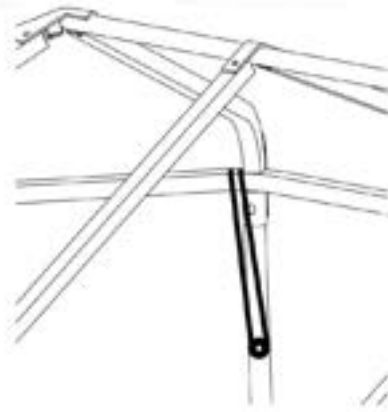

Figure 3-A Top Bungee

Figure 3-B Bottom Bungee

**Step 3.** Once the zipper is completely closed and the fabric is even with the top of the roof main frame and the buckles line up with the uprights and the roof ribs you can begin connecting all the bungee as seen in Figure 3-A and 3-B Connect one bottom bungee then the corresponding top bungee until they are all connected.

**Note:** There are four bungee on the bottom and four on the top of the back wall near the door and two on the front wall that go around the platform frame and connect to hooks sewn on the fabric and not to versa buttons.

**Step 4.** You can now install the roof. The roof cover is equipped with eight buckles to connect to the buckles that are on the side of the blind. Place the fabric on the roof and pull it down all the way around and connect the buckles by reaching thru the windows and pull snug, do not over tighten as it will pull the side fabric up at the bottom. Try to get all sides even. After you finish go outside and walk around the blind and check it and adjust if necessary.
